

HS-360Q

High Speed Sachet Bagger

APPLICATIONS

3-sided seal

Cost-effective and versatile, this design maximizes material efficiency, and the uniform package shape ensures consistent cartoning, efficient storage, and an organized presentation.

4-sided seal

Ideal for premium applications where strength and presentation are essential. The construction provides added durability and protection and a high quality appearance that enhances product appeal.

Solids	gummies, tablets, capsules, nuts
Powders	drink mix, protein, spices
Granules & Seeds	sugar, salt, coffee, rice
Liquids	saucers, syrups, oils
Pastes & Creams	gels, ointments
Small Parts	fasteners, fittings, dessiccant

Fast where it counts. Precise where it matters.

Most machines make you choose: run fast, or run clean. The HS-360Q refuses. Four synchronized servos drive it to 320 pouches a minute while holding registration and seal quality you'd expect at half the speed — hour after hour, shift after shift, day after day.

A quadro cutting system keeps four knives in rotation so that speed never costs you accuracy. No-bag-no-fill protection means a missed pouch never costs you product, and full SUS304 construction stands up to washdown for years. Nothing gets wasted: not product, not film, not uptime. If throughput is the number your business runs on, this is the machine you build your line around.

PACKAGING PROCESS

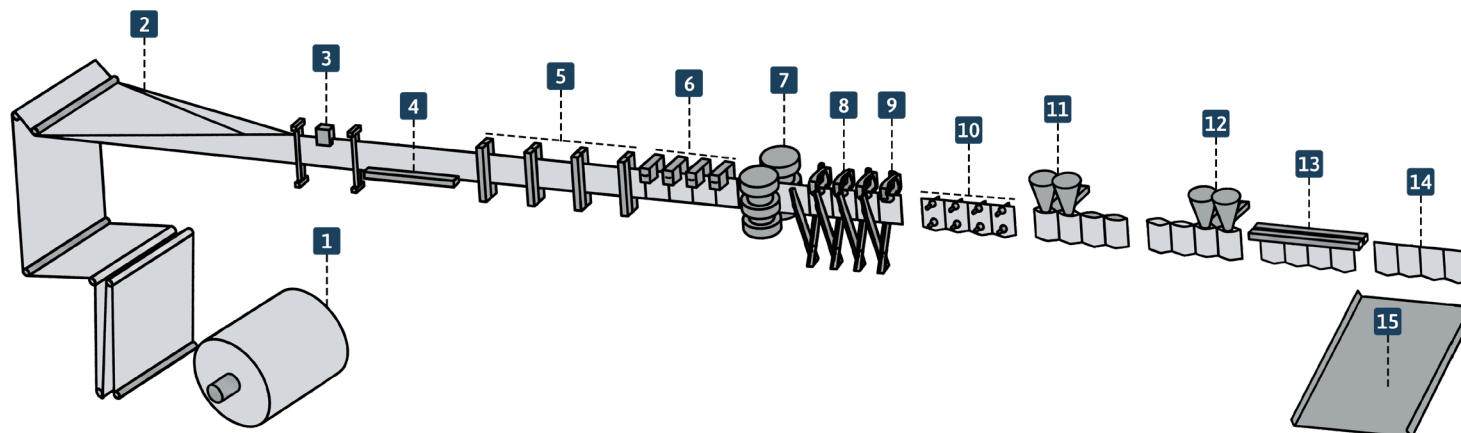

Diagram Guide:

1. Film Release
2. Film Guide
3. Pouch Forming
4. Bottom Sealing
5. Vertical Seals
6. Tear Notch Cutter
7. Pouch Advance
8. Cutter
9. Pouch Sorting
10. Pouch Opening
11. First Filling
12. Second Filling
13. Top Seal
14. Finished Product
15. Slide Conveyor

SPECIFICATIONS

Cycle Speed	Up to 320 bags per minute *
Fill Volume	up to 100 ml
Electrical	380 V Triple Phase 50Hz **
Air Consumption	400 NL / min
Footprint	6440 x 1100 x 1400 mm
Weight	~ 4,500 kg

BAG DIMENSIONS

	Minimum	Maximum
Width	2.5" (63.5mm)	13" (330.2 mm)
Length	3" (76.2 mm)	60" (1524 mm)
